Summary

I am an MBA candidate at the Indian Institute of Management Lucknow with nearly five years of experience at LTIMindtree, where I drove strategy, post-merger integration, and large-scale business transformation initiatives across global clients.
My work includes unlocking high-value enterprise deals, orchestrating long-term strategic contracts, and leading integration efforts that delivered meaningful cost efficiencies and operational alignment. I have contributed to growth strategy, cross-border restructuring, and process benchmarking engagements for large, multi-million-dollar businesses across regions. Recognized for accelerated career progression and top-tier performance within my division, I bring a structured, data-driven approach to problem-solving along with strong cross-functional stakeholder management experience.
Beyond academics and professional commitments, I am deeply passionate about snooker – a sport that demands precision, patience, and strategic foresight. This passion has led me to serve as the Captain of the Snooker Team at IIM Lucknow, where I combine composure under pressure with team leadership.

Experience

Accenture Strategy & Consulting

Summer Intern
April 2026 - June 2026 (3 months)
Kolkata, West Bengal, India

• Supported strategy and transformation initiatives across Enterprise AI, SAP, and High-Tech domains, developing executive-ready insights, strategic points of view, and client deliverables.

• Contributed to thought leadership on Enterprise AI Operating Models and AI-led Product Development Lifecycle (PDLC) initiatives through industry research, AI readiness assessments, and operating model design.

• Developed digital transformation assets, including an Order Management Digital Twin and Service Lifecycle Management (SLM) Value Tree, while analyzing supply chain resilience and emerging technologies such as multi-agent systems and sovereign cloud ecosystems.
